Important Information: We are issuing this communication with urgency following a significant increase in enforcement actions and fines related to illegal vape and e-cigarette sales. Recently, merchants across the network have been assessed substantial penalties for non-compliant activity, with violations triggering the MasterCard BRAM (Business Risk Assessment and Mitigation) program. These actions carry meaningful financial consequences—including fines of up to \$450,000 per incident—and require immediate response and extensive documentation. Given the scale and severity of these recent developments, it is critical that all merchants review their practices and ensure full compliance with applicable regulations and card brand requirements.

Important Compliance Notice – E-Cigarette and Tobacco Product Sales

In alignment with recent regulatory guidance and Attorney General expectations, merchants are reminded that the sale and distribution of e-cigarette and other tobacco-related products are subject to strict federal, state and local regulations. Federal law requires that certain e-cigarette products receive authorization from the U.S. Food and Drug Administration (FDA) prior to being marketed or sold. Merchants are responsible for ensuring that all products offered for sale or processed through their accounts comply with applicable regulatory requirements.

Required Action:

- ☒ Confirm that all e-cigarette and tobacco products meet FDA authorization requirements, where applicable
- ☒ Adhere to all federal, state, and local laws governing the sale, marketing, and distribution of these products
- ☒ Maintain appropriate controls to prevent the sale of restricted or non-compliant products

Non-Compliance Consequences:

Failure to comply with these requirements may result in corrective action, including potential restrictions on processing activity. Entities identified as selling illegal e-cigarettes, vapes, or other electronic nicotine delivery systems identified through MasterCard have been subjected to the MasterCard BRAM (Business Risk Assessment and Mitigation Program) compliance program. This program may subject a merchant to potential fines of up to \$450,000 per incident. In addition, this program requires accelerated response times, and the merchant may be required to submit substantial documentation.
